Mid-Senior iOS Developer at Vesedia, Inc.

Job description

(Partial overlap with US Eastern Time hours required.)

Vesedia is excited to expand our efforts with the addition of Mid-Senior iOS Developer. The right candidate will have 3-6 years iOS development experience, be results oriented, and have technical knowledge along with interpersonal skills. You will be working in a rapidly growing team on an exciting line of next-generation geo-aware social apps. Our team is currently consisting of 3 developers, and you'll be working hand-in-hand with UI/UX Designer, QA and PM. This is an excellent opportunity to join a successful development team with its own product line – working on new and exciting social apps!

Majority of the work can be done remotely, with possibility for occasional travel to our US locations (New York, Miami). Our process includes daily SCRUM calls, additional chats as-needed and constant communication via Email, Skype and project tracking tools (JIRA, Confluence).

We offer a long-term relationship therefore a match on a professional as well as on a personal level is very important.

About Our Company

Vesedia is the mobile software and marketing company behind MeetCity and Sponter. Our apps help people meet and get together in the real world. Think of it as Facebook meet Uber. Vesedia been started by two Binghamton University - Computer Science graduates (class of 2001) who intended to create the next generation of networking apps for social, dating, sports and professional lives. Vesedia MeetNow platform uses mobile geo-location technology and facilitated arrangements AI to help people instantly meet friends, professional contacts and cool new people in the real life.

Find us in Apple App Store and Google Marketplace:

- MeetCity - meet new people around, no chatting, geo-map interface, Uber style instant dates
- Sponter - find friends and things-to-do on a map, arrange time and place, navigate and check-in

Vesedia, Inc.
277 Thames St.
Groton, CT 06340
Phone: 860.334.7396

Requirements:

- A Bachelor's or a Master's degree in Computer Science or a similar discipline (software or IT engineering, mathematics, electronics engineering, financial engineering, finance and other faculties that develop mathematical/analytical skills)
- 3-6 years full time experience in development of complex iOS applications, working in an IT company
- Excellent Objective-C/SWIFT skills
- Deep understanding of iOS and its internals
- Experience working with remote APIs via REST and JSON, and backend-less services – Google Firebase (NoSQL)
- Understanding of the iOS SDK (Components, Patterns, Architecture, differences between SDK versions)
- Experience with native frameworks and services: UIKit, Core Data, Core Animation, Cocoa Touch, Core Graphics, Core Location, Apple Push Notification Service, etc.
- Minimum of one published app in the App Store (networking, social media connectors, and geo-map functionality is highly desired).
- Object-oriented software engineering (MVC/VIPER design patterns)
- Experience in UI and unit testing
- Practical knowledge of SCRUM
- Experience with collaborative tools such as JIRA and Confluence

Additional skills and qualities:

- Intermediate English level:
 - 100% understanding of technical documents
 - Ability to communicate via emails and write documentation
 - Intermediate conversational skills
- Reliability, honesty and ability to meet deadlines
- Constantly aiming to improve your skills striving to perfection
- Taking personal responsibility for the quality of your work
- Ability to work independently (problem solving skills) and in a team
- Willingness to learn new technologies and handle new challenging projects
- Great communication and interpersonal skills

What can we offer:

- Opportunity to work according to the US standards with the newest technologies
- Professional growth and learning opportunities
- Friendly and very professional working environment

Vesedia, Inc.
277 Thames St.
Groton, CT 06340
Phone: 860.334.7396

- Competitive salary based on your skills and performance
- Payment in USD (the salary will be set in USD)
- Regular salary reviews and bonus programs
- Promotion opportunities and possibility of business trips to the US

Applying for this position:

- Get in touch with us by submitting your application with a CV in English including a photo.
- Please specify your salary expectation in the CV.
- Applications without salary expectation, with unrealistic expectations or without a photo will not be considered.

We are looking forward to reviewing your application.

Applicants will be required to meet, via video chat, with one or more Vesedia employees. We'll talk about your interest in the position, what you bring to the table, prior development experience, and go over samples of your work.
